Specification

It is suggested to insert the continuing data in the first page, first paragraph of the specification.

Detailed Action

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 10 is rejected under 35 U.S.C. 102(b) as being anticipated by Chapman (US Patent Number 4,827,191).

3. Regarding claim 10, Chapman discloses a method of operating a peak detector (fig. 1) comprising the step of providing a peak detector for an input signal having a noise threshold as well as discrete pulses (in fig. 2, block 12 is a peak detector that receives an input signal); applying the input signal to the peak detector and using the peak detector to detect local maxima and local minima of the input signal without detecting local maxima or minima attributable to noise alone when superimposed upon the input signal (an input signal is applied to the peak detector 12 where a local maxima or minima attributable to noise alone when superimposed upon the input

signal)[see figs. 1, 2; paragraph bridging col. 1, and 2; col. 2, lines 36 – 54; col. 2, line 57 to col. 3, line 25].

Allowable Subject matter

4. Claims 1 – 9, 11 are allowable.
5. Reasons for allowing these claims will be provided in the next office action.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
